Response to Amendment

- ✓ 1. The reply filed on 11/26/02 consists of amendments to Claims 1 & 8-10; changes in the drawings & specification and remarks related to rejection of claims. The claims are not allowable as explained below.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

✓ The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

- ✓ 3. Claims 1-15 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Each of the cladding regions having a mean refractive index different from those of the adjacent regions and a given wavelength between 1510 nm to 1590 nm were not described in the original specification and are considered new matter.

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
